LIGHT WOOD FLATS OR TRAYS

These Flats are Ideal for selling plants.

FOUR SIZES

Wood Veneer Plant Bands are convenient and economical to use. Many growers use them to start plants and others use them for transplanting.

We furnish nine different sizes.

Will cut and staple special sizes in quantities except during the months of January, February and March.

Since the war is over we are using two staples in all sizes of bands. During the war we could not get wire enough to put two staples in all bands.

Many growers prefer having bottoms for the bands. These bottoms slip right into the staple band. Bottoms are not stapled in when shipped.

Some growers prefer using bands not stapled. They are shipped flat.
